Help protect your health with a COVID-19 vaccination

The **FREE*** COVID-19 vaccination from CVS Health® can get you one step closer to being back with those you care about most. You may be unsure about getting vaccinated, but with millions of COVID-19 vaccine doses administered to date, CVS® has the expertise and experience you need to get vaccinated safely.

Things to know about the COVID-19 vaccine:

It's FREE!*

*The vaccine is available at no cost, either with insurance or through a federal program for the uninsured.

It's effective

After two required doses, the Pfizer-BioNTech and Moderna vaccines have a 94% to 95% efficacy rate of protection against COVID-19.

We're experts

We have years of experience safely administering vaccines, and have performed more than 11 million COVID-19 tests.

Vaccinations available by appointment only at a CVS near you:
